Umair Ul Hassan

FULL-STACK DEVELOPER — WEB

+92 347 3256547 | Lahore, Pakistan | umairulhassan.cs@gmail.com | github.com/umairulhassancs | linkedin.com/in/umair-ul-hassan-cs | umairulhassan.site

Full-Stack Developer building web applications across SaaS, commerce, and ERP systems, with hands-on experience in React, Next.js, Node.js, TypeScript, REST APIs, PostgreSQL, MongoDB, and Firebase. Experienced developing authentication and RBAC workflows, payment integrations, real-time features, and API-driven applications.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, Java
Frontend	React, Next.js, Tailwind CSS, Three.js
Backend / APIs	Node.js, Express.js, FastAPI, REST APIs
Databases / Cloud	PostgreSQL, MongoDB, Firebase Suite
AI / ML	PyTorch, Vision Transformers (ViT), CNNs, LLM & Speech Integrations
Tools	Git, GitHub

EXPERIENCE

Full-Stack Developer — **ANIMMZA**

Next.js, React, Node.js, TypeScript, PostgreSQL, REST APIs — *Jan 2025 – Feb 2026 | Hybrid, Lahore, Pakistan*

- Developed full-stack web applications using React, Next.js, and TypeScript, delivering responsive UIs and optimized client performance.
- Engineered backend RESTful APIs and server actions with Node.js and Express, designing scalable PostgreSQL schemas and queries.
- Implemented secure authentication workflows (JWT, RBAC) and third-party integrations, improving system reliability.

Web Development Intern — **ARCH TECHNOLOGIES**

React, Next.js, Node.js, JavaScript, REST APIs — *Aug 2025 – Oct 2025 | Remote, Pakistan*

- Built responsive UI components and REST endpoints, integrating frontend workflows with backend services and database records.

SELECTED PROJECTS

Vouch Keychain — **PERSONAL SAAS PRODUCT**

Next.js 16, React 19, TypeScript, Firebase Suite, Twilio, Resend, Three.js — *2026*

- Built and deployed a QR-based lost-item recovery SaaS product with privacy-preserving masked-contact communication, currently used by around 10 customers.
- Implemented real-time location-recovery telemetry, multi-channel alert dispatch via Twilio SMS/voice and Resend email, and an interactive Three.js 3D product visualizer.

Evershine Academy ERP & LMS — **CLIENT PROJECT**

Next.js 16, React 19, TypeScript, PostgreSQL — *2026*

- Developed ERP/LMS features alongside the team for a deployed multi-campus education system used by 100+ users.
- Built and integrated 7 role-based access portals, automated PDF fee-challan generation, staff payroll workflows, and on-premise biometric fingerprint attendance synchronization.

FinGo Marketplace — **MULTI-VENDOR COMMERCE**

React.js, Node.js, Express.js, MongoDB, JWT — *2024*

- Built a multi-vendor commerce platform connecting retail and grocery stores with customers across Lahore, Karachi, and Islamabad.
- Implemented 3-tier role-based access control, secure JWT authentication with refresh-token rotation, and real-time inventory tracking.

GardenMate Ecosystem — **FINAL YEAR PROJECT**

FastAPI, Firebase, Stripe, PyTorch (ViT-B/16), React Native, Expo, Viro React AR — *2025 – 2026*

- Designed the marketplace commission engine with Stripe payment settlement and automated delivery fee calculations across Customer, Vendor, Rider, and Admin portals.
- Built an asynchronous FastAPI inference service combining a fine-tuned Vision Transformer (ViT-B/16) and PlantNet API in a 60/40 weighted ensemble (~350ms inference time).

ACHIEVEMENTS

Digital Pakistan Speed Programming Competition (DPSPC) — **TOP 50 NATIONWIDE**

National Speed Programming & Algorithmic Problem Solving Contest (~450 Teams) — *2025*

- Ranked among the top 50 teams nationwide out of ~450 competing teams in speed programming and algorithmic problem solving under strict time constraints.

InnovateX 2.0 Coding Competition — **GIFT UNIVERSITY**

Algorithmic Competitive Programming Hackathon — *2025*

- Competed in algorithmic coding challenges focused on data structures, time/space complexity, and efficient algorithm design.

EDUCATION

Bachelor of Science in Computer Science (BS CS) — **GIFT UNIVERSITY, GUJRANWALA**

Coursework: Software Engineering, Data Structures & Algorithms, Database Systems, Artificial Intelligence, Machine Learning, Computer Vision, Distributed Systems — *2022 – 2026*
